## About the book

In "Good Inside" by Becky Kennedy, readers are invited into a transformative exploration of parenting and self-discovery, predicated on the radical yet powerful belief that both parents and children are inherently good inside. Kennedy, a clinical psychologist and mother, juxtaposes her professional expertise with her personal experiences to offer a compassionate framework that fosters connection and empathy within families. The book challenges conventional, punitive approaches and instead promotes strategies grounded in mutual respect, emotional intelligence, and reflective practices. By merging real-life anecdotes with actionable advice, "Good Inside" promises not only to reshape how you parent but also to enrich your understanding of your own emotional landscape, making this a must-read for anyone striving to build a more nurturing and harmonious home environment.

# Part 1 Summary : Dr. Becky's Parenting Principles

## Dr. Becky's Parenting Principles

### Good Inside

Dr. Becky Kennedy's central belief is that both parents and children are fundamentally good inside, which influences everything she teaches about parenting. Recognizing this internal goodness shifts the focus from frustration and punishment to curiosity and understanding about why bad behaviors occur. This principle allows parents to separate a child's identity from their actions, enabling more effective interventions and a better parent-child connection.

### Rewiring the Circuit

Reflect on your own childhood to understand how your reactions to your kids can be influenced by your past experiences. Acknowledge that children's challenging

**More Free Book**

Scan to Download

Listen It

behaviors often stem from their struggles to cope with emotions and unmet needs. Recognizing this helps break the cycle of judgment and shame, allowing parents to foster an environment of understanding instead.

## **The Most Generous Interpretation (MGI)**

Ask yourself what the most generous interpretation of your child's behavior is. Frame their actions as expressions of deeper feelings rather than as misbehavior, which can foster empathy in your responses. This perspective not only helps maintain the parent-child bond but also aids in teaching children essential emotional regulation skills.

## **Two Things Are True**

This principle emphasizes that it is possible to hold multiple truths at once, such as being both a fun parent and a firm one. Understanding that you can enforce rules while also recognizing your child's feelings allows for healthier family dynamics and connections.

## **Know Your Job**

**More Free Book**

Scan to Download

Listen It

Recognize the distinct roles within the family system. Parents must establish safety for their children through boundaries, validation, and empathy, while children should explore their own emotions and experiences. This clarity helps prevent power struggles and promotes healthy emotional development.

## **The Early Years Matter**

Early parenting interactions significantly influence how children perceive themselves and their ability to regulate emotions. The experiences from their formative years lay the foundation for future relationships and emotional expression, making the quality of parenting during this period crucial.

## **It's Not Too Late**

Regardless of how old your child is, positive change and connection are always possible. Parents can always work toward improving relationships, healing from past failures, and creating a secure attachment with their children.

## **Resilience > Happiness**

**More Free Book**

Scan to Download

**Listen It**

Focusing solely on making children happy can hinder their ability to develop resilience. It's essential to teach kids how to cope with and tolerate distress, ultimately leading to genuine happiness as they learn to manage a wider range of emotions.

## **Behavior Is a Window**

Behavior should be seen as a glimpse into underlying feelings, motives, and needs. Understanding the reasons behind a child's actions allows for more compassionate responses and effective interventions that prioritize emotional growth.

## **Reduce Shame, Increase Connection**

Shame can inhibit emotional development. Recognize when shame arises in yourself or your children, and focus on reducing it through connection, compassion, and understanding. Helping children feel validated even during difficult moments fosters their emotional resilience.

## **Tell the Truth**

**More Free Book**

Scan to Download

**Listen It**

Being honest with children about difficult topics is vital. Embrace uncomfortable conversations, confirming their perceptions while providing age-appropriate truths. This helps children feel safe and understood, promoting healthy emotional development.

## **Self-Care**

Parents must prioritize their well-being to effectively care for their children. By establishing boundaries and attending to their own needs, parents can model self-care and resilience for their children, ultimately enhancing the family dynamic.

**More Free Book**

Scan to Download

**Listen It**

## Critical Thinking

**Key Point:** The premise of innate goodness in children could be overly simplistic.

**Critical Interpretation:** Dr. Becky Kennedy's assertion that both parents and children are fundamentally good inside prompts reflection on the complexities of human behavior. While this view aims to foster understanding and compassion, it may overlook the influence of external factors such as socioeconomic status, trauma, and environmental conditions that contribute to behavior. A critical perspective would assert that framing behavior solely through the lens of inherent goodness risks trivializing the struggles many families face. It is essential to consider diverse resources, such as Judith Viorst's 'Necessary Losses' or Gabor Maté's works on compassion and childhood trauma, which explore the complex interplay of environment and individual behavior, challenging the notion that goodness alone can drive positive behavioral change.

# Part 2 Summary : Building Connection and Addressing Behaviors

## Part II: Building Connection and Addressing Behaviors

### Chapter 11: Building Connection Capital

In discussions with parents struggling with children's behavior, the key issue is often a lack of connection within the family. Before addressing specific behavioral problems like tantrums or rudeness, it's essential to prioritize rebuilding connections. Recognizing that children's behaviors often reflect their need for closeness helps parents focus on strengthening those bonds instead of merely correcting behavior.

#### Strategies for Connection:

-

#### Play No Phone (PNP) Time

More Free Book

Scan to Download

Listen It

: Engage in phone-free playtime to build focused attention and connection.

-

### **The Fill-Up Game**

: Use physical affection to fill the emotional need for connection during difficult moments.

-

### **Emotional Vaccination**

: Prepare children for emotional challenges through preemptive discussions that validate their feelings.

## **Chapter 12: Not Listening**

When children appear to ignore parental requests, it often signals a relationship issue rather than disobedience.

Connection leads to cooperation, hence parents should work on fostering a stronger bond with their child.

### **Strategies to Encourage Listening:**

-

#### **Make Requests After Connection**

: Connect with your child before asking them to shift focus from play to responsibilities.

**More Free Book**

Scan to Download

**Listen It**

-

### **Give Choices**

: Offer options in compliance requests to encourage a sense of control.

-

### **Incorporate Humor**

: Use lightheartedness to make requests more appealing.

## **Chapter 13: Emotional Tantrums**

Tantrums signal a child's inability to manage emotions. They are not acts of defiance but expressions of overwhelm.

Parents need to recognize the emotions underlying tantrums and respond with understanding and connection.

### **Strategies for Managing Tantrums:**

-

#### **Recognize the Feelings Behind Tantrums**

: Validate the child's emotions instead of reacting to their behavior.

-

#### **Avoiding Attempts to Fix**

: Focus on being present during tantrums and allowing your

**More Free Book**

Scan to Download

Listen It

child to express their feelings.

## **Chapter 14: Aggressive Tantrums**

Aggressive behaviors like hitting or throwing are signs of a child being in a state of threat. The frontal cortex responsible for impulse control is impaired during these moments.

### **Strategies for Handling Aggression:**

-

#### **Containment**

: Avoid escalating the situation; enforce boundaries firmly to ensure safety.

-

#### **Understand the Underlying Fear**

: Acknowledge that your child's aggressive reaction often stems from fear and confusion.

## **Chapter 15: Sibling Rivalry**

The introduction of a sibling can trigger a sense of jealousy and the need for parental reassurance in older children.

**More Free Book**

Scan to Download

Listen It

## Strategies to Navigate Rivalry:

-

### **Dedicated Alone Time**

: Ensure each child has individual time with parents to foster security.

-

### **Emphasize Individual Needs Over Fairness**

: Shift focus from fairness to recognizing and meeting individual emotional needs.

## Chapter 16: Rudeness and Defiance

When children display rudeness, it often reflects emotional struggle rather than disrespect.

## Strategies for Addressing Rudeness:

-

### **Respond with Empathy**

: Recognize that rudeness may stem from a child feeling misunderstood or frustrated.

-

### **Model Authority Calmly**

More Free Book

Scan to Download

Listen It

: Set boundaries firmly while maintaining an understanding tone.

## **Chapter 17: Whining**

Whining is often an expression of helplessness and a desire for connection.

### **Strategies for Reducing Whining:**

-

#### **Channel Your Own Inner Whiner**

: Acknowledge and model a playful acceptance of whining.

-

#### **Respond with Humor**

: Use lightheartedness to defuse emotional intensity.

## **Chapter 18: Lying**

Children often lie to protect their sense of self or to avoid disappointing parents.

### **Strategies for Navigating Lies:**

**More Free Book**

Scan to Download

Listen It

-

### **Reframe the Lie as a Wish**

: Recognize the desire behind the lie rather than viewing it as a bad behavior.

-

### **Give Space and Return with Open Questions**

: Avoid immediate confrontation; instead, revisit the discussion later.

## **Chapter 19: Fears and Anxiety**

Fears in children manifest as physical symptoms and signal a need for connection rather than rational justification.

### **Strategies for Addressing Fears:**

-

### **Jump into the Hole Together**

: Validate and acknowledge your child's fear to help them feel less alone.

-

### **Practice Dry Runs**

: Rehearse potentially scary situations to reduce anxiety.

**More Free Book**

Scan to Download

Listen It

## Chapter 20: Hesitation and Shyness

Hesitance can trigger anxiety for parents, but it's important to respect a child's process.

### Strategies to Build Comfort with Hesitation:

-

#### Validate the Feeling of Hesitation

: Reinforce that it's okay to take time before engaging with unfamiliar situations.

-

#### Preparation

: Discuss upcoming events thoroughly to create familiarity.

## Chapter 21: Frustration Intolerance

Frustration often stems from a child's struggle with new challenges. It's important to support emotional management.

### Strategies for Increasing Frustration Tolerance:

-

#### Deep Breaths

More Free Book

Scan to Download

Listen It

: Model and practice deep breathing to promote calm when frustration arises.

-

### **Frame Frustration as a Sign of Learning**

: Encourage understanding that struggles are part of the learning process.

## **Chapter 22: Food and Eating Habits**

Food issues often reflect deeper concerns around control and family dynamics.

### **Strategies for Healthy Eating Habits:**

-

#### **Implement the Division of Responsibility**

: Clarify roles around food choices between parents and children.

-

#### **Normalize Snack and Meal Expectations**

: Keep communication open about snacks, meals, and preferences without power struggles.

## **Chapter 23: Consent**

**More Free Book**

Scan to Download

Listen It

Children's body sovereignty must be respected early on to build confidence.

### **Strategies for Teaching Consent:**

-

#### **“I Believe You”**

: Build trust in your child’s feelings about their body.

-

#### **Use Thumbs Up/Down/To the Side**

: Encourage communication about feelings without overwhelming your child.

## **Chapter 24: Tears**

Tears are a natural expression of emotions, signaling a need for support.

### **Strategies for Navigating Tears:**

-

#### **Talk About Tears**

: Normalize crying and discuss emotional experiences

**More Free Book**

Listen It

outside of distressing moments.

-

### **Validate the Importance of Tears**

: Reinforce that tears signal what's happening internally to encourage acceptance of emotions.

## **Chapter 25: Building Confidence**

Confidence is about self-trust and acceptance of one's feelings.

### **Strategies for Building Confidence:**

-

#### **Lead with Validation**

: Recognize and affirm feelings instead of downplaying them.

-

#### **Explore “How’d You Think to . . . ?”**

: Encourage curiosity about thoughts and creativity.

## **Chapter 26: Perfectionism**

Perfectionism often signals a child's struggle with emotional

**More Free Book**

Scan to Download

**Listen It**

regulation.

### **Strategies for Helping with Perfectionism:**

-

#### **Make Your Own Mistakes**

: Model how to handle mistakes positively.

-

#### **Tell the Story of the Feeling Under Perfectionism**

: Address feelings driving perfectionistic tendencies.

### **Chapter 27: Separation Anxiety**

Separation anxiety is a natural response tied to attachment and security.

### **Strategies to Mitigate Separation Anxiety:**

-

#### **Check In with Your Own Anxiety**

: Acknowledge your feelings about separation to model calmness.

-

#### **Talk About Separation**

**More Free Book**

Scan to Download

**Listen It**

: Prepare children for separations in advance.

## **Chapter 28: Sleep**

Sleep issues often arise from separation struggles.

### **Strategies to Promote Better Sleep:**

-

#### **Infuse Your Presence**

: Use transitional objects or routines to make separation easier.

-

#### **Recordable Comfort Button**

: Create a recorded message that children can hear when feeling scared at night.

## **Chapter 29: Kids Who Don't Like Talking About Feelings**

Deeply feeling kids often get overwhelmed by emotions.

### **Strategies for Engaging Deeply Feeling Kids:**

**More Free Book**

Scan to Download

**Listen It**

-

### **Move from Blame to Curiosity**

: Approach situations with curiosity rather than judgment.

-

### **Containment First**

: Focus on maintaining a safe environment while the child is in distress.

## **Conclusion**

Throughout this guide, the principle of "you are good inside" serves as a powerful foundation for change. Recognizing internal goodness allows for self-reflection and growth in parenting, as we learn to balance our own emotions with those of our children. It's crucial to acknowledge both the past and future while holding on to the belief that meaningful, intergenerational change is not only possible but happening. Thank you for engaging in this journey—together, we can foster connections and cultivate resilience in ourselves and our children.

# Good Inside Questions

[View on Bookey Website](#)

## Part 1 | Dr. Becky's Parenting Principles| Q&A

### 1.Question

**What is the core belief about children that underpins Dr. Becky's parenting principles?**

Answer:At the core, Dr. Becky believes that every child is fundamentally good inside, regardless of their behaviors. This perspective promotes curiosity about their actions and aims to address the underlying needs and emotions driving those behaviors.

### 2.Question

**How can seeing children as 'good inside' change parental responses to their misbehavior?**

Answer:Recognizing children as inherently good allows parents to respond with empathy and understanding instead of frustration and anger. This perspective enables them to focus on the reasons behind a child's behavior, fostering a

More Free Book

Scan to Download

[Listen It](#)

supportive environment where the child can learn and grow.

### 3.Question

**What is the significance of the phrase 'two things are true' in parenting?**

Answer:'Two things are true' helps parents acknowledge that they can enforce boundaries while also validating their children's feelings. This principle encourages the idea that multiple realities can coexist, promoting understanding and connection between parent and child.

### 4.Question

**How does Dr. Becky suggest that parents rewire their understanding of discipline?**

Answer:Dr. Becky emphasizes that discipline should focus on understanding the root causes of behavior rather than merely modifying it through control and punishment. By addressing the emotions and needs driving a behavior, parents can help children learn resilience and self-regulation.

### 5.Question

**What questions can parents ask themselves to better understand their child's behavior?**

More Free Book

Scan to Download

Listen It

Answer:Parents can ask themselves: 'What is my most generous interpretation of my child's behavior?', 'What was going on for my child in that moment?', and 'What does my child feel I don't understand about them?'

## 6.Question

**In what ways does acknowledging and reducing shame benefit children?**

Answer:By recognizing and reducing shame, parents help children feel seen and loved, despite their misbehavior. This approach allows children to confront their feelings, fostering connection rather than isolation, and enhances their emotional well-being.

## 7.Question

**What does self-care mean in the context of parenting, according to Dr. Becky?**

Answer:Self-care in parenting means recognizing the importance of a parent's well-being and allowing oneself the space and time to recharge. It involves balancing one's own needs with those of their children to maintain harmony

More Free Book

Scan to Download

Listen It

within the family.

### 8.Question

**How can parents practice 'repair' after moments of conflict with their children?**

Answer:Parents can practice repair by revisiting difficult moments with their children, expressing genuine apologies, validating their child's experience, and discussing what they wish they had done differently. This reinforces the connection and allows for growth and understanding.

### 9.Question

**What role does curiosity play in effective communication between parents and children?**

Answer:Curiosity encourages parents to explore the underlying feelings and circumstances surrounding their children's behaviors. By approaching situations with curiosity, parents can foster open and honest communication that strengthens their relationship.

### 10.Question

**Why is it critical for parents to model emotion regulation for their children?**

More Free Book

Scan to Download

Listen It

Answer: Modeling emotion regulation teaches children how to manage their own feelings effectively. It shows them that it's acceptable to feel a wide range of emotions and provides them with the tools to cope with distress, ultimately leading to their emotional resilience.

## **Part 2 | Building Connection and Addressing Behaviors| Q&A**

### **1.Question**

**What is the first step to addressing behavioral issues in children according to Dr. Becky?**

Answer: Building connection is essential before addressing behavior; behavior is often a sign of disconnection or unmet needs.

### **2.Question**

**How does Dr. Becky describe a child's emotional bank account?**

Answer: She compares it to a bank account filled with 'connection capital'; the way parents connect with their children influences how regulated they feel.

### **3.Question**

**More Free Book**

Scan to Download

**Listen It**

**What approach does Dr. Becky suggest when a child exhibits challenging behaviors?**

Answer: Instead of correcting the behavior directly, focus on reconnecting and building strong emotional ties.

#### **4.Question**

**What is 'PNP Time,' and how does it help children?**

Answer: PNP Time stands for 'Play No Phone Time,' where parents engage in device-free play with their children for 10-15 minutes, fostering connection and attention.

#### **5.Question**

**Why is it important to keep connection capital high, especially when correcting behavior?**

Answer: Because when connection capital is high, children feel safer and more secure, making them more collaborative when parents need to set boundaries or correct behavior.

#### **6.Question**

**What does Dr. Becky mean by 'emotional vaccination'?**

Answer: Emotional vaccination involves preparing children for future emotional struggles by discussing potential difficulties and strategies for coping before they occur.

**More Free Book**

Scan to Download

**Listen It**

## 7.Question

**How can parents help a child who fears separation or feels anxious?**

Answer:Parents should discuss separations in advance, providing reassurance and discussing feelings of safety.

## 8.Question

**What is a powerful phrase to use when addressing children's feelings about their situation?**

Answer:'There's something about this moment that feels hard for you.' This phrase validates their feelings and encourages them to express themselves.

## 9.Question

**How does Dr. Becky recommend to handle instances of children being rude or defiant?**

Answer:Instead of seeing it as disrespect, view it as a sign of emotional dysregulation and help the child process their feelings.

## 10.Question

**What is the purpose of using humor in parenting challenges?**

More Free Book

Scan to Download

Listen It

Answer:Humor helps to reduce tension and can make it easier for children to connect and express their feelings.

### 11.Question

**How can parents help children develop a growth mindset?**

Answer:By framing mistakes as learning opportunities and emphasizing effort over outcomes, parents can build resilience and confidence in their children.

### 12.Question

**What tool does Dr. Becky suggest to help teach body consent and respect for personal boundaries?**

Answer:Teach children assertive phrases like 'No' and 'Stop' and insist they have the right to personal boundaries.

### 13.Question

**How can parents help their child cope with frustration and feelings of inadequacy?**

Answer:By being present, using deep breathing, modeling how to struggle without giving in, and validating their feelings.

### 14.Question

More Free Book

Scan to Download

Listen It

## **What underlying emotion often motivates children's perfectionism, according to Dr. Becky?**

Answer: Children's perfectionism often stems from disappointment and a fear of not measuring up to their own or others' standards.

### **15.Question**

## **What does Dr. Becky mean by the term 'Deeply Feeling Kids'?**

Answer: This term refers to children who experience emotions intensely and may struggle with regulation more than the average child.

### **16.Question**

## **What overall message does Dr. Becky emphasize about parenting and children's behavior?**

Answer: She emphasizes that parents can shape behaviors positively by fostering connections, respecting feelings, and focusing on building emotional resilience in children.

### **17.Question**

## **What is an important reminder for parents when dealing with children's emotional outbursts?**

**More Free Book**

Scan to Download

**Listen It**

Answer:Remember that your child's struggles are not personal; they may reflect larger emotional undercurrents that need validation and support rather than punishment.

### 18.Question

**What does Dr. Becky suggest doing when the parent feels guilty or concerned about how they've handled a situation?**

Answer:She suggests reflecting on the two truths: acknowledging failures while also remembering that you are a good parent at heart seeking to improve for your child's sake.
